

ANURAG SALPE

COMPUTER SCIENCE ENGINEERING STUDENT

OBJECTIVE

Highly motivated Computer Science Engineering student with strong programming skills in HTML, CSS, JavaScript, PHP, C, C++, Java and MySQL. Passionate about AI development and web technologies, with hands-on experience in building LLM chains, AI agents, and web applications. Seeking opportunities to apply technical expertise in a dynamic software development environment.

SKILLS

- HTML/CSS/JavaScript
- PHP
- C/C++
- Java
- MySQL
- Data Structures & Algorithms
- Communication
- AI Development
- Web Development

LANGUAGES

- English (Fluent)
- Marathi (Fluent)
- Hindi (Fluent)
- German (Intermediate)

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering

Sandip University

Jun 2025 - Present (2nd Year)

12th Standard

Deogiri College

2022 - 2023

PROJECTS

LLM Chain and AI Agents

Artificial Intelligence Development

Recent Project

Developed sophisticated LLM (Large Language Model) chains and AI agents, demonstrating advanced understanding of artificial intelligence concepts and implementation. This project showcases expertise in AI development

AI-Powered Calculator Application

Web Development & AI Integration

Recent Project

Built an innovative calculator application with AI capabilities, combining traditional web development technologies (HTML, CSS, JavaScript) with artificial intelligence features. This project demonstrates the ability to integrate AI functionality into practical web applications.

Web Development Calculator

Frontend Development

Recent Project

Developed a fully functional calculator application using core web development technologies including HTML, CSS, and JavaScript. This project showcases proficiency in frontend development and user interface d
